3rd TechTalk in Retirement Benefits

The IAI is pleased to announce a webinar hosted by the Advisory Group on Pensions, Employee Benefits and Social Security via web conference on 2nd June, 2021.

This is a Technical session “Techtalk” for 1.5 hours aimed to anyone who wants an introductory knowledge or refresh to the topic of defined contribution pension schemes.

Two global organisations, OECD and International Organisation of Pensions Supervisors (IOPS) have published public consultations in Q1-2021.

- i) Good Design of Defined Contribution retirement savings plans (OECD)
- ii) Good practices for designing, presenting and supervising pension projections (IOPS)

This Techtalk will summarise these documents, provide insights on how they may relate to the developing landscape in India. It will provide a good overview of general defined contribution scheme designs, what makes them successful. Actuaries are involved across the world in design of such schemes and pension projections in particular.
