Webinar on Disaster Risk Financing- A Country Diagnostic Toolkit

The IAI is pleased to announce a 4th Live webinar hosted by the Advisory Group on Sustainable Development & Microinsurance.

Disaster risks faced by developing countries can be a significant threat to their continued development. It is essential to have an environment which allows adequate ex-ante and ex-post financing arrangements in place to mitigate and manage these risks.

This webinar aims to discuss the Asian Development's Bank's framework that can be applied by countries to assess and strengthen their financial preparedness against disaster risk. It also aims to explore the role of various factors such as government policy, economic conditions etc. as well as the insurance and reinsurance industry in creating such an enabling environment.

It is of particular interest for Actuaries who currently work in insurance, reinsurance or capital markets as well as those who would like to broaden their understanding of the requirements to manage disaster risk from a macro perspective.

Date: 6th November, 2020, Friday

Time: 1700 - 1830 IST
