a decade of post qualification experience with an overall 2 decades of work experience. She comes to us from Willis Towers Watson where she was leading the employee benefits vertical for India. She used to work with Life Insurance Corporation of India earlier. She has co-authored research on health and wellness in the Indian corporate sector, spoken on this topic in various forums and has written in a number of newspapers and business and industry publications while at Willis Towers Watson.

Atanu Majumdar

Director, Micro Insurance Academy (MIA)

A post-graduated from Indian Statistical Institute (Kolkata), Atanu Majumdar is a seasoned Statistician. With over three decades of work experience he has handled data from multiple sectors especially from the field of health. During the past 10 years he has been providing statistical support to various research projects of MIA including pricing of community based health insurance products. MIA, promoted by Professor Dr David Dror, a globally renowned Health Economist and the person who invented the term microinsurance, is one of the pioneers in the domain of microinsurance providing technical support for community involvement in microinsurance all over the world.

S P Chakraborty

GM (Actuarial)

IRDAI

S P Chakraborty is a qualified fellow of Institute of Actuaries of India. He has more than 28 years of experience in Insurance Industry out of which 10 Years + in Insurance Regulator's office. Currently, he is working as General Manager (Actuarial) and mainly handles valuation and product clearance aspects of both Life, Non-life and health insurance companies. He is working as a member in various key committees of the IRDAI.

Sumit Ramani

Actuarial Consultants

Consulting Actuary at Actuarial Consultants and Chief Actuary at FidentiaX

Sumit Ramani is an Information and Communication Technology (ICT) engineer turned actuary. He has over a decade of experience in (re)insurance industry with a focus on Life and Health insurance and has worked with stakeholders/clients across the globe including Americas, Europe, Australia and Asia. Sumit has been unconventional in his approach to life. This could possibly explain why he has been attracting unconventional assignments since he started on his own. His first assignment was to help a gaming company enter the insurance market. Luckily, it turned out it was first amongst many that followed. Sumit is a seasoned speaker and has been invited to deliver talks in several local and international actuarial and insurance conferences. He is a Fellow member of IAI and IFoA
